

Private Pilot Course

Welcome

Princeton Flying School has a program designed to train you either for pleasure or professional flying. Our open enrollment schedule allows students to enroll at their convenience at anytime of the year.

Princeton Flying School provides a comprehensive, integrated training system. You begin your ground and flight training concurrently. We have lessons from 8:00 am until dark. Appointments are scheduled at mutually convenient times among you, your instructor and the available aircraft.

PRINCETON FLYING SCHOOL
41 Airpark Road

Payment Methods

All services to be paid upon receipt via cash, check or major credit card. We require a credit card on file. We offer the following prepayment discount: For every \$1000 payment by cash or check we offer a 5% bonus on account.

Total Cost

The cost of your Private Pilot's license depends on the time required to complete the program, as well as a variety of factors including the frequency of lessons, physical coordination, language comprehension, weather variability and instructor availability. The national average for earning a Private Pilot's license is 80+ hours. The Princeton Flying School has averaged 65 flight hours in the past. If you are able to take Lessons 2-3 times a week, and take less than 80 hours your license cost could be as low as \$13,000-\$16,000.
